

# Ranked Choice Voting for Colorado

Better elections. Easy as 1-2-3.

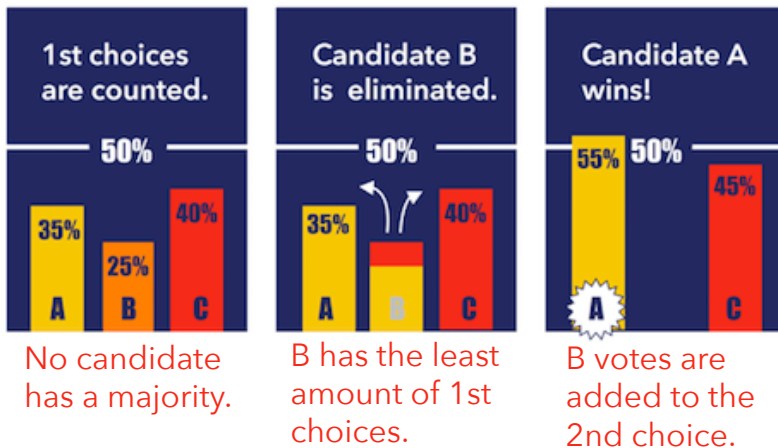

## More Voice:

With Ranked Choice Voting, you have the freedom to rank candidates in order of choice. If your favorite candidate can't win, your vote counts for your next choice, until someone wins a majority.

## More Choice:

You are free to vote your honest preference, without the worry that you are helping your least favorite candidate win.

## How It Works:

## Ranked Choice Voting:

### Save Money

Runoffs are avoided when voters have already indicated their second preference.

### Stronger Voices

Voters have a way to express preferences while still voting for their first choice.

### Broaden Participation

Candidates have to appeal to people who might initially vote for someone else.

Cities like Minneapolis & St. Paul, San Francisco & Oakland have been using Ranked Choice Voting for years. They have seen:

- More diverse candidates
- Improved turnout
- More positive, issue-based campaigns

Tell your city council member today to say you want more voice with **Ranked Choice Voting**.
